

I would like to express my opposition to further concentration of media ownership. One only has to look at the sorry state of radio in the US today to see where similar deregulation of TV and Newspaper ownership will lead: What used to be a lively mix of LOCAL news, music and human interest stories has now become a homogenized one-playlist-fits-all series of radio station clones. The FCC should be protecting the public airwaves and doing everything it can to increase our access to a diversity of views. Please do not allow further consolidation, the profits of major media corporations should not be driving this debate.
